

## Mitre-Pro Activator

**Product #** 099606A

### DESCRIPTION

Mitre Pro Adhesive is a high-viscosity adhesive system for bonding where large gap fill is important or where materials are absorbent. This versatile system will bond most woods, plastics, rubbers and metals.

### ADVANTAGES AND BENEFITS

Because of its viscosity, Mitre-Pro Adhesive allows additional bonding time prior to curing when used without activator. When used with Mitre-Pro activator, the cure speed is significantly increased without affecting bond strength.

## TECHNICAL SPECIFICATIONS

<b>Product #</b>	099606A
<b>Base</b>	Solvent
<b>Finish/Color</b>	Clear Transparent
<b>Packaging Specifications</b>	Canister
<b>Features</b>	Flammable
<b>Size</b>	200 ml
<b>Application Color</b>	Clear
<b>Material</b>	Butane, Isobutane

## APPLICATION

Cure speed with activator: 5-20 seconds, depending on substrate and conditions. Cure speed without activator: 25-60 seconds, depending on substrate and conditions. Operating temperature: -50 °C to 80 °C. Full cure time: 24 hours at 20 °C.

## IMPORTANT INFORMATION

The activator does not impact PVC plastics
