TECHNICAL SPECIFICATIONS

Product #	916453
Brand	FastCap
Details	Activator
Size	12 oz

IMPORTANT INFORMATION

The activator may in some cases cause discoloration of PVC siding, tan granite colors, and some finishes used on wood. Test before using! Final results could take up to 5 days. Before finishing, wipe all surfaces with denatured alcohol or appropriate prep solvent to remove any activator residue.

APPLICATION

Directions: - Apply 2P-10 adhesive to one surface and 2P-10 activator to the other surface and assemble. - 2 to 4 seconds for alignment, 10 seconds to set, and 30 seconds to cure. - For more alignment time do not use 2P-10 activator. Assemble the parts with just the adhesive and it will set in 10-20 seconds and cure in 5 minutes.

DISCLAIMER

DANGER: Extremely flammable. Eye and skin irritant. Contents under pressure. Read carefully cautions on back panel. **STOP:** The activator can, in rare cases, cause discoloration of PVC siding, tan colors of granite, and some finishes used on wood. Test before using. Final results could take up to 5 days. For more information to go to www.fastcap.com/activator Keep away from children Keep away from heat, sparks and flame Use in accordance with the SDS.
