10 seconds to bond, 30 seconds to cure With 2P-10 you can easily glue the hardest joints in cabinetry without clamping!

TECHNICAL SPECIFICATIONS

Product #	916495
Brand	FastCap
Details	Thick

IMPORTANT INFORMATION

The activator may in some cases cause discoloration of PVC siding, tan granite colors, and some finishes used on wood. Test before using! Final results could take up to 5 days. Before finishing, wipe all surfaces with denatured alcohol or appropriate prep solvent to remove any activator residue.
