

Ultra® Classic Toner

Product # M1000415

DESCRIPTION

Transparent dye-based toner with the highest lightfastness rating available for dyes. No overspray provides excellent flow-out and is mar- and alcohol-resistant. Solve flow-out problems associated with aerosol lacquer touch-ups! Ultra® Classic Toners use a non-fading, non-bleeding dye for excellent clarity. Wood shades can be varied without causing the "muddy" effect sometimes associated with pigment-type toners.
